

Summary:

Hari is a Senior Microsoft technology developer with over 8 years of experience and responsible for **analysis, design, development, testing, implementation** and **documentation** of software systems and products.

- **Over 9 years** of industrial experience in software **analysis, design, development, testing** and **implementation** of applications in **Windows** and **UNIX** platform.
- Responsible in complete **Software Development Life Cycle (SDLC)** using **Object Oriented Analysis and Design (OOAD)** in business environment.
- Good **banking domain** knowledge in **Core Banking** and **Foreign Exchange**
- Experience in developing **FX** trade, **NDF** trade and **OPR** trade using **C++**.
- Experience in developing **financial** and **banking** applications using **C++** and **VC++**.
- Expertise in **Object-Oriented Analysis/Design** and **C++** development.
- Experience on using **C++**, **VC++**, **MFC**, **SDI**, **MDI**, **COM**, **ATL** and **STL** extensively.
- Around 5 years of **C++** experience in **web based applications**.
- Good knowledge on writing programs in **IBM Web Sphere MQ series** and **C++**.
- Good knowledge and development experience in **PKI**, **Smart Cards** and the **HSM** using **C++**.
- Experience in developing application for **Visual Studio .Net Web Services** and **SOAP** protocol using the **C++** and **COM** Interfaces.
- Expertise in developing applications using **Visual Studio.Net** and **Microsoft Platform SDK**.
- Extensive experience in developing applications using **SDK** using **C++/VC++**.
- Hands-on **GUI** development experience using **VC++** and **MFC**.
- Experience on **Microsoft Exchange Server 5.5**, **Exchange Sever 2000** and **Exchange Sever 2003** using **C++** and **VC++**.
- Hands-on experience in developing Java applications using **Core Java** libraries.
- Expertise in developing web pages using **JSP** and **ASP**.
- Expertise in **Agile Methodology**.
- Experience in developing applications using **Visual Basic 6.0**, **VB.Net** and **C#**.
- Experience in developing applications using **VC++** with **Oracle** and **SQL Server**.
- Experience in **Multithread programming** and **Synchronization** using **C++**.
- Have worked with various version control systems like **PVCS** and **VSS**.
- Extensively used **XML**, **HTML**, **CSS**, **VB Script**, **JavaScript** and **Perl** for various applications.
- Experience in design and creation of the database **tables**, **triggers**, **views**, **stored procedures** and **sequences**.
- Experience in developing **LDAP** applications using **C/C++** and **Visual Studio 2008** for **Sun One LDAP Server**.

TECHNICAL SKILLS:

Languages: **C/C++**, **VC++**, **MFC**, **SDI**, **MDI**, **GUI**, **VB**, **VB.Net**, **ATL**, **COM**, **STL**, **Java**, **Perl**, **JSP**, **HTML**, **ASP**, **XML**, **Visual Studio 2008**, **C#**, **SQL**

RDBMS: **Oracle 10i**, **MS SQL Server 2000**

Tools: **Visual Studio. Net Web Services**, **Soap**, **SSL**, **HTTP**, **IBM Web Sphere MQ Series**, **IIS**, **Apache Tomcat**, **Cryptography**, **Sun One LDAP**, **Smart Cards/HSM**, **Tuxedo**

Version Control: **VSS**, **PVCS**

Servers: **Exchange server 5.5**, **2000**, **2003** and **2007**, **LDAP**

OS: **Windows 2000**, **Windows 2003 Server**, **Windows XP**, **UNIX**
